LETTER RESUBMITTING FORMAL DRAWINGS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

On June 4, 2002, Applicants resubmitted Formal Drawings in the above-identified application. It now appears that certain of the figures in those drawings had errors. Specifically, the center layers 20, 40, 42, 60, and 62 were incorrectly shown. As the specification clearly states, these layers are aligned carbon fibers layers and are not the nonwoven layers as in the exterior layers, for example.

Submitted herewith are the corrected formal drawings in which the interior layers are properly shown as consisting of the aligned carbon fibers.

It is respectfully submitted that no new matter is involved since the specification is clear as to the construction of the different layers.

Approval of the attached drawings is earnestly solicited.

Respectfully submitted,

COOPER & DUNHAM
